

## Epping Plaza

**Sector:**

Retail

---

**Location:**

Epping, Victoria

---

**Client:**

Equiset

---

**Building value:**

\$80 million

---

**Year:**

2006 - 2007

---

**Description:**

The Epping Plaza Regional Shopping Centre saw an expansion of the existing shopping centre by 26,800m<sup>2</sup> (totalling a site area of 65,000m<sup>2</sup>).

The expansion (Stage 3 development) allowed for the latest in high quality retail design, featured by a continuous glazed barrel vaulted ceiling and roof providing a light contemporary and elegant retail environment.

James L. Williams installed a DX air handling plant that was tailored for the client's specific requirements. Also installed were roof top packaged units with add on gas fired duct heaters, natural gas services, boiler plant rooms and general, toilet and car park exhausts.
